DETAILED ACTION

The amendments filed March 19, 2002 and March 16, 2004 are objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: The original specification does not provide support for two labels being on one carrier strip. The original specification does not provide the method step of selecting an uninvolved body segment from a plurality of uninvolved body segments. The original drawings only show one figure. In that figure is the word "no cut" and a scalpel. There is no support for two warning labels. There is a lack of support in the original specification for two warning labels. However, to insert the limitation of two warning labels into the specification would be new matter.

Applicant is required to cancel the new matter in the reply to this Office Action.
